December 2020

Organisational Update...

It has been a tough few months for The Bureau, as well as other community groups and voluntary organisations, trying to navigate the Government's Coronavirus restrictions as well as providing our services as well as we possibly can. We've had to change plans a good few times and the last national lockdown meant we had to close our office again.

However, we are open again from now until Thursday 24th December, at which point we'll be giving our office elves a well earned rest by closing up for Christmas!

We will reopen bright eyed and bushy tailed on Monday 4th January, raring to face whatever challenges 2021 might like to throw at us.

Bring it on!!

Grants Funding Update...

We have launched our new Place Based Partnerships, which aims to support local groups who deliver projects to local people in less central areas of Glossopdale. We want to bring people together in these areas to find out more about what they want for their community, and support them to come up with a practical plan. We can provide the support and funding needed in order to achieve these aims! Get in touch with Charlotte Winterbottom on charlotte@the-bureau.org.uk.

Spotlight on... Move More!

Move More Glossop has been created to provide and encourage opportunities to enable the community of Glossop to build movement into their everyday life. By showing the real benefits of moving more and help people to choose to be more active.

We are delighted to announce that Move More Glossop are launching 2 festive Story Walks. These are based in Manor Park and Whitfield, and follow Manny the Mole and Wilma the Woodpecker on their festive adventures. The walks are self-led and guides the readers around each area. If you pick up a flyer for Wilma the Woodpecker's story around Whitfield, there's even a competition on the back with some great prizes to be won! These flyers can be picked up from the dispenser outside Pure Vibes. You can also pick up flyers at the entrance to Manor Park, or download them all from www.the-bureau.org.uk/move-more-glossop

Enjoy Moving More with your family and friends (ensure you respect social distancing and the rule of 6!)

Meet The Team!

We haven't hired any new faces this month, so instead let's introduce you to one of our newer members of staff, Fiona Gales! She is our Project Coordinator and works very hard recruiting volunteers and supporting the grants scheme amongst a whole host of other things. She joined us in 2019 after volunteering in the office and has been a super asset ever since!

Client Quotes...

This quote comes from Adam, a Life Skills client, who emailed in with some wonderful feedback.

"Ed, I would like to thank you for finding me a mentor and, in particular, the mentor meeting this afternoon. It was the first time I've really opened up since the discussions with the CBT team back in 2005 regarding the loss of my mum, and equally so regarding my father ten years before. What we went through in the Life Skills course this morning has eased some of those innermost feelings, realise that I'm not alone on them."

You'll mostly find Fi wandering in the hills around Glossop with her dog Bella and her fiancé Alex, or dancing to some stone cold pop bangers!
